Terms of Use:

1. Utmost care has been taken to ensure the proper checking of the information and compilation. In case of any discrepancy, please write to us at info@mohitmangal.com . We shall be happy to correct it in the compilation.
2. For the latest updates, we strongly urge you to check and rely on the actual websites of the Colleges/ Universities or the test conducting bodies given in the Book.
3. Wherever 2 or more dates are given, that may represent two or more cycles of the same test being conducted.
4. The Compiled Content including dates, definitions, degree nomenclatures, entrance exams, details etc. in the book has been gathered from various authentic sources like UGC, MHRD, Individual College or Institution websites Etc. This data is being used for educational and information giving purpose. The author acknowledges all sources whether mentioned or otherwise.
5. The Ranking of colleges given in the book are based on the 17 Years of experience in the education sector of the Author. The ranking given is the true understanding and view point of the author and may differ with others.

ALL ABOUT ARCHITECTURE AND PLANNING EDUCATION IN INDIA

Description of Profession: (What does one do in this?)

Architecture = Art + Engineering

A career with amalgamation of Creative Freedom, Expression and Technicality. Architects & Planners work in a range of establishments. From designing to construction, they dwell in both the different worlds. With a Bachelors degree, An Architect opens doors for himself from Production to Academics.

A professional in this field creates designs and models for commercial or residential infrastructures, both interior and exterior, according to the customer's customization.

As a professional, the professional is involved in the management and construction of the residential/ commercial/ industrial/ agricultural infrastructural development for the city. A Planner usually works on urban planning and landscape architecture, mainly focusing on environmental issues, like sustainability and managing natural resources.

Statistics say that employment of urban and regional planners is projected to grow 13 percent till 2016, faster than the average for all occupations. With the increase in the development and improved infrastructure, including housing, roads, sewer systems, parks, and schools of the country, there is a high demand of qualified Architectures and Planners.

Professions available to candidates after completing Architecture and Planning

Architect: An architect is involved in the planning and drawing of this design, as well as overseeing its construction. The design has to be functional, thus an architect needs to have knowledge of the builder's requirements, such as which planning and building codes the construction must abide by.

Archaeologist: An expert who studies human history and prehistory through the excavation of sites and the analysis of artefacts and other physical remains.

Architectural Engineer: Architectural engineers apply science and technology to the real world by designing buildings that enhance our standard of living and improve our quality of life. They do this by combining building systems – structural, electrical, mechanical, lighting, acoustics and fire protection - into an integrated whole.

Building Surveyor: Building Surveyors offer advice on many aspects of design and construction, including maintenance, repair, refurbishment and restoration of proposed and existing buildings.

Commercial/Residential Surveyor: A Commercial/Residential Surveyor deals with all aspects of residential and commercial property in both the private and public sectors. Principal activities are related to the management, purchase and sale or leasing of land and property, as well as valuing and surveying property.

Construction manager: A Construction Manager supervises and manages contractors and labourers at construction sites. Often they meet with architects, specialized trade employees, and civil engineers on projects or upcoming builds.

Inspector/Conservation Officer: Buildings Inspector or Conservation Officer represents conservation issues to planning and development policymakers both locally and nationally, advise on planning applications and guide new developments that affect the repair or alteration of historic buildings, areas and sites.

Interior Designer: Interior designers make interior spaces functional, safe, and beautiful by determining space requirements and selecting decorative items, such as colors, lighting, and materials. They read blueprints and are aware of building codes

iquemohit

and inspection regulations. They Primarily Deal with interior decoration of a room or building.

Landscape Architect: Landscape architects design attractive and functional public parks, gardens, playgrounds, residential areas, college campuses, and public spaces. They also plan the locations of buildings, roads, walkways, flowers, shrubs, and trees within these environments.

Restoration Architect: Restoration architects are architectural professionals specialize in the preservation and conservation of historic buildings and monuments. They alter or restore buildings and monuments in order to prevent their deterioration.

Spatial Designer: An architect or a designer from Spatial Design works with spatial organisation and all its human implications. The more rapidly organisations, patterns of living and local traditions are disrupted, the more awareness is needed. Careers in this area focus on the entire concept and scope of a public or private space. Essentially, these designers attempt to harmonise interior and exterior spaces, and design how they flow into one another.

Town Planner: A professional who practices in the field of urban planning. An urban planner may focus on a specific area of practice and have a title such as city planner, town planner, regional planner, long-range planner, transportation planner, infrastructure planner, environmental planner, parks planner, physical planner, health planner, planning analyst, urban designer, community development director, economic development specialist or other similar combinations.

Qualities required in a candidate who wishes to pursue Pure Sciences

- Very High on Academic Orientation
- Contain High Scientific Aptitude
- Should be good with Logic and Analysis
- Ability to work in a Team
- Curiosity in researching about new things
- Ability to spend long hours with books or computers
- You should be good with Research and Problem Solving Skills

Degrees Available In Architecture and Planning

Degree Nomenclature	Level	Duration	Eligibility
B. Arch. (Bachelor of Architecture)	Bachelor Degree	5 year	10+2 PCM
B. Plan (Bachelor of Planning)	Bachelor Degree	4 year	10+2 PCM / Any Stream
B.Tech. (Planning)	Bachelor Degree	4 year	10+2 PCM
M.Arch. (Master of Architecture)	Master Degree	2 year	Bachelor's
M. Plan. (Master of Planning)	Master Degree	2 year	Bachelor's
M. Phil. (Master of Philosophy)	Pre Doctoral	1-1/2 year	Master's
Ph. D. / D. Phil. (Doctor of Philosophy)	Doctoral	2 year +	Master's
D. Sc. (Doctor of Science)	Post Doctoral	1 Year +	Ph. D.

Career Prospects after Bachelor of Engineering/Technology

Work with PWD: Work at Public Works Department, National Building Organizations, Town & Country Planning Organizations, Department of Railways etc.

Start own Architectural Venture: Work independently as an Architecture or Planner, plan details of sizes, specification and estimates of the cost of the structure, etc. individually according to your specialization.

Work with Builder/ Construction Co.: Work with Construction companies, builders, or private consultants.

Work as a Professional Architect/Planner: Work in the construction industry designing new buildings, restoring and conserving old buildings and developing and Planning new ways of using existing buildings.

Work as an Interior Designer: Use a combination of creative flair and technical knowledge to help renovate and transform the interiors of built structures for the clients.

Work as a Landscape Designer: Deal with outdoor spaces. Combine the Client's garden design and landscape architecture expertise to create imaginative, functional and enjoyable outdoor spaces for private and commercial uses.

Work as a Spatial Designer: Spatial design is quite a new discipline that essentially combines the design principles of both interior and landscape design. Careers in this area focus on the entire concept and scope of a public or private space. Essentially, these designers attempt to harmonise interior and exterior spaces, and design how they flow into one another.

Higher Studies in respective field: After graduation, the next step is getting a Master degree in the field of your own choice and specialization.

Indian Civil Services: The Indian Administrative Service (IAS), Indian Foreign Service (IFS), Indian Police Service (IPS) is the top ranking jobs. Other services, includes Finance, Post and Telegraph, Revenue, Secretariat etc.

Merchant Navy: You can join the merchant navy from age 16 onwards as an officer cadet or marine apprentice and train as a deck rating. You will at least require four GCSEs (grades A-C), or equivalent qualifications. These

Archaeological Survey of India: Work as a Photographer, Deputy Superintending Conservative Assistant, Surveyor, Additional Director General, Joint Director General (Finance & Accounts) etc. with Archaeological Survey of India.

Banking Job: Many reputed government exams like IBPS, SBI and other bank exams emphasize on the knowledge of banking and business. You can work with any Private or Public bank after following the demanded procedure through the organization.

Research and Academics: Deliver workshops at schools of Architecture & Planning or develop research by putting designs and ideas into practice.

Indian Armed Forces: A graduate can join through the Combined Defence Services examination as a regular/short service commissioned officer. Training for regular commissioned officers is carried out at Indian Military Academy, Dehradun, known as the cradle of Military leadership. Those desirous of joining the Short Service Commission get trained at Officer's Training Academy at Chennai and serve for a period of five years. On completion of this term he can either resign or opt for an extension for five years or a permanent commission.

ARCHITECTURE and PLANNING Entrance Exams

About the Author

Trained in Structural Engineering along with a Master's Degree in Management under his hat, Mr. Mohit Mangal is a Nationally Renowned Career Counselor and Motivational Speaker. Mr. Mohit quit his cushy job in a top FMCG Company in 2003, against much reservations and apprehensions of his peers, since he felt driven by the quest to help students find their right career path. Having found his own path the hard way around, he was equipped with the detailed know-how of the dilemmas that students face and the challenges that the very dynamic professional market throws at the student community. He felt confident about guiding them in the right direction.

Today, more than 17 years later, Mr. Mangal has delivered more than 1500 talks across India and helped more than 6 lakh students identify their right path forward. He has counseled more than 25000 students through his indigenously developed tool called "BrainMapping".

Driven by the assurance of having made substantial difference, and motivated by the zeal to surpass his own self, Mr. Mohit along with his team continues to deliver career awareness workshops, design and use Self-Assessment tools for school and college students, and offer guidance to more than 1,00,000 students each year. He also works with college students and professionals, who need help in identifying and fine tuning their Career Goals at different points in their professional life to attain even higher goals.

Mr. Mohit runs iQue Foundation for Youth Awareness, which is Section-8 Not-for-Profit Organisation that is devoted to create awareness amongst the youth on relevant, contemporary and topical issues of the day, Career Awareness being one of those.

He has been a Guest Faculty at some of the premier institutes of the nation including IIT-Delhi, IIT-Mumbai, IIM-Ahmedabad, IIM-Bangalore, National Institute of Design, National Institute of Fashion Technology and Gujarat Institute of Disaster Management to name a few.
